*Giving Appreciated Stock*

Current tax laws make it possible for you to make a charitable gift of stock at a remarkably low after-tax cost. Giving stock costs you less. The NRF recognizes the full market value of the (publicly traded) stock as your contribution. For stock owned for more than a year, stock gifts to the NRF allow you to avoid paying federal and state capital gains taxes (which can be 20% or more). Securities can be transferred directly to the NRF's account at Wachovia Securities. Please contact Hart Perry at 860-535-0634 or [natrowing@comcast.net](mailto:natrowing@comcast.net) for more information.
